Parent-Child Interaction Therapy (PCIT) is an internationally-recognized, evidence-based parent management program for families who have children with primary or secondary externalizing behavior problems. This clinical workshop serves as an introductory training for mental health providers who are interested in becoming PCIT International Therapists.

Training includes 40 hours of workshop training, 12 months of twice-monthly consultation calls, 4 reviews of PCIT sessions, and assistance toward Certification.

Training Cost:

\$1,500 for Nebraska providers
\$4,500 for out-of-state providers

Application Deadline:

Tuesday, March 26, 2024
