

DC:0-5™

Clinical Training

DC:0-5™ Diagnostic Classification of Mental Health and Developmental Disorders in Infancy and Early Childhood

Building on ZERO TO THREE's powerful legacy of using the latest scientific findings and clinical research, DC:0-5™ has been developed to enhance the professional's ability to prevent, diagnose, and treat mental health problems by identifying and describing disorders specific to infants and young children that are not well addressed in other classification systems.

→ Dates, Fees & Registration:

What: 3-day Virtual Training

When: February 13-15, 2024
11 a.m. - 3 p.m. (CST)

Where: Zoom

Fee: NAIMH Members: \$75
Non-Members: \$150
Participants must purchase the DC:0-5™ Manual

Learn More & Register Online:
nebraskababies.com/events/dc05_clinical

→ Hosted By:

Partnered with NAIMH

→ Training Overview:

This professional development opportunity is designed for advanced practitioners whose work with infants, young children and their families involves expert assessment, diagnosis, and case formulation.

The approach to diagnosis is developmentally informed, relationship-based, contextual, and culturally competent. The training allows clinicians to have in-depth knowledge of the approach and content of DC:0-5™ and to practice application of this new nosology with the support of peers and Expert Faculty through activities and case examples.

Space is limited to 21 Nebraska licensed mental health clinicians!

Iowa mental health clinicians: Contact Rhonda Rairden-Nelson for more information on joining this training. rrairde@dhs.state.ia.us
